

Montana Audubon Center--Phase 2 Reopening Summer Camp

We look forward to a reopening of select programs at the Center under Phase 2 of the Governor's guidelines, which includes this year's summer camp program. To protect participants, we will be implementing the following protocols:

General:

- Wearing a mask is required for camp attendance (unless they are age 5 or younger). Masks will not be worn during snack, running activities, canoeing and times where it isn't feasible. Adults need to wear masks during drop off and pick up.
- Small group sizes: No individual camp will exceed 20 people (including staff).
- Majority of the camp day will be held outside.

Check-in/out:

- Writing utensils will be disinfected after each use.
- Staff will check campers in on a clipboard and ask parents/guardians if their child is feeling well today and if they have been exposed to anyone with COVID 19 symptoms in the last 14 days.
- Parents/guardians should take campers' temperatures **before leaving for camp**. Staff will record temperatures during check-in and will take temperatures if needed.
Temperature recording is mandatory for camp attendance.

Sanitization:

- All equipment will be disinfected after each use.
- Campers will wash or sanitize hands upon arrival and departure, and before consuming food.
- All areas of the building will be sanitized regularly.

Other points of interest:

- Parents and families are encouraged to maintain social distancing between themselves and other families, as well as with other camps, during pick-up and drop-off.
- If your camper has knowingly been exposed to someone exhibiting symptoms, or is exhibiting symptoms themselves, or has a fever of 100.4 or greater, we ask that they **not attend programming**. We will verify the above for each camper each day. Also, please let us know if your child becomes sick after attending programming so that we can inform those needed.
- We will not be requiring campers or staff to wear masks. We understand that you may wish for your camper to wear a mask, and they are more than welcome to, but our staff will not enforce their wearing of it during programming.
- We encourage you to have discussions with your camper about appropriate social distancing behavior.
- Building is closed to the public.
