

## Instruction Sheet

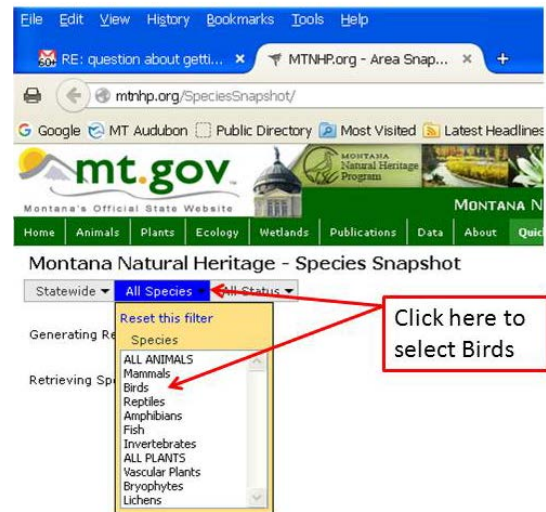

### List of Montana Birds for Your Area

A list of bird observations already seen in a specific Montana area (e.g., LL, QLL, or QQLL) can be developed by:

1. Clicking here: <http://mtnhp.org/SpeciesSnapshot/>.
2. In the upper left corner there is a filter that is defaulted to "Statewide." Click on the down arrow on that filter and select the LL, QLL, or QQLL of interest (*see image right*).

3. If you only want a list of birds, click on the down arrow on the adjacent "All Species" filter and click on "Birds." Similarly, you can filter out species of a particular status with the filter that is currently defaulted to "All Status" (*see image right*).

(Continued on Page 2)

4. To see your list, click on the "+" next to the birds link at the bottom of the report to expand/see the list of birds. The total number of species is reported in the header of the report.

Click on the "+" to see the list of birds

MT Status	Species of Concern	Potential SOC	MT Special Status	Other	Total
Mammals					
Birds	66	17	2	361	446
Reptiles					
Amphibians					
Fish					
Invertebrates					
ALL ANIMALS	66	17	2	361	446
Vascular Plants					
Bryophytes					
Lichens					
ALL PLANTS					

Download PDF FieldGuide | Print Species List

Collaps All | Expand All Species Groups | Expand All Species Groups and Species Info

**Birds** 446 Species

5. To print or download the information: below the animal/plant summary table, click "Print Species List" link or export a PDF Field Guide by clicking on the "Download PDF FieldGuide" link above the report. The Field Guide provides one page of information for each species.

Click here to print a list or download a field guide

MT Status	Species of Concern	Potential SOC	MT Special Status	Other	Total	Number of Observations	Species Occurrences	Predicted Suitable Habitat Model	Links
