

BILL TABLE – 2019 MONTANA LEGISLATURE

This table contains the bills we are working on during the 2019 Montana Legislature. For more information, contact Amy Seaman at 406-210-9449 or aseaman@mtaudubon.org, or Wyatt Smith at 406-241-7897 or wsmith@mtaudubon.org.

Acronyms: FWP - MT Fish, Wildlife & Parks; DNRC - MT Dept of Natural Resources & Conservation

Legislation we are tracking falls in these categories:

- Wildlife & Habitat Protection
- Wildlife Program Funding
- Climate Change & Energy
- General Environmental Protection
- Public Lands, Recreation & Parks
- Subdivisions & Land Use Planning

Legislation at the 2019 Montana Legislature			
Bill Number/ Sponsor	Description	Status	Audubon Position
Wildlife & Habitat Protection			
HB 227 Rep. Forrest Mandeville (R-Columbus)	HB 227 attempts to amend the rabies control act by adding a 5th provision to definitions and a 4th provision to prohibition of wild animals exceptions of ‘vaccinated animal’ that allows anyone to own a wild animal -- skunk, fox, raccoon, or bat -- that is born in captivity and vaccinated on a schedule designed by the Department of Public Health and Human Services.	Tabled in Committee	Oppose
HB 161 Rep. Brad Tschida (R-Missoula)	The bill would require Montana Fish, Wildlife and Parks (MTFWP) to only use facts and scientific data when prescribing wildlife management. However, under Montana’s Constitution, public input must be considered when making decisions on wildlife management, including on hunting seasons, fishing regulations and non-game wildlife. HB 161 ignores	Tabled in Committee	Oppose as amended

	<p>this and would erode the public trust. Amendments to the bill further remove the human dimensions staffer from the departments work force.</p>		
<p>SB 68 Sen. Bruce Gillespie (R-Ethridge)</p>	<p>This bill removes the residency requirement for pilot participation in the state’s aerial predator control program. This program licences between 16-24 pilots a year. This bill was amended to make sure animals not classified as predators, like grizzly bears and wolves are not included.</p>	<p>Tabled in Committee</p>	<p>Neutral with amendments</p>
<p>HB 29 Rep. Theresa Manzella (R-Hamilton)</p>	<p>This bill, known as the “bird-dog” bill modifies regulations put in place in the early 80’s to regulate bird-dog training. It cleans up old, unenforceable language and puts FWP on a better path towards modifying this section of law.</p>	<p>Signed by Governor</p>	<p>Support</p>
<p>HB 132 Rep. Kenneth Holmlund (R-Miles City)</p>	<p>This bill tries to clarify the definition of “wild bison” or “wild buffalo” to include “never has been subject to a per capita fee under 15-24-921.” The changes are not necessary, and target herds on private lands. The bill was amended by the house, and while amendments make the bill better in some ways, they may make it so that Yellowstone bison that have experienced captivity at some point, to be considered livestock.</p>	<p>Veto Letter Sent</p>	<p>Oppose</p>
<p>HB 142 Rep. Joshua Kassmier (R - Fort Benton)</p>	<p>This bill amends the definition of weed management in our state to “integrated weed management”, a simple change that acknowledges the multifaceted approach needed to treat noxious weeds in our state. It would allow funding for weed management to extend far beyond herbicides to include multiple treatment types and to support education around the issue.</p>	<p>Signed by Governor</p>	<p>Support</p>
<p>HB 143 Rep. Neil Duram (R - Eureka)</p>	<p>This simple bill lifts the sunset on the three-day non-resident upland bird hunting license. These licenses help fund the upland game bird enhancement program that benefits many other birds and wildlife as well.</p>	<p>Signed by Governor</p>	<p>Support</p>
<p>HB 265 Rep. Kerry White (R - Bozeman)</p>	<p>If passed, this bill would require MT Fish, Wildlife & Parks to have land acquisitions and conservation easements approved by the Land Board if they are larger than 100 acres or cost more than \$100,000. This politicizes the opportunity landowners have to put conservation easements on their land.</p>	<p>Scheduled for 2nd Reading 4/5</p>	<p>Oppose</p>

<p><u>HB 279</u> Rep. Bob Brown (R-Thompson Falls)</p>	<p>This bill would allow “ethical trappers” licensed to trap wolves to be reimbursed with private money for costs incurred during harvest. This bill amounts to a bounty on wolves, commercializes wildlife, and won’t solve elk or wolf management challenges.</p>	<p>Died on 2nd Reading (23-27)</p>	<p>Oppose</p>
<p><u>HB 280</u> Rep. Bob Brown (R-Thompson Falls)</p>	<p>This bill adds a wolf harvesting license to the state’s resident class AAA Combination Sports license for no extra cost. If this bill passes, the Dept. of Fish, Wildlife & Parks will lose funding normally directed to the state’s comprehensive wolf management program. Proposed amendments change to cost to reduce financial losses to MTFWP.</p>	<p>Hearing 4/11</p>	<p>Oppose unless amended to reduce financial impacts</p>
<p><u>HB 281</u> Rep. Bob Brown (R-Thompson Falls)</p>	<p>This bill adds a wolf harvesting license to the state’s non-resident class B-10 Combination Sports license for no extra cost. If this bill passes, the Dept. of Fish, Wildlife & Parks will lose funding normally directed to the state’s comprehensive wolf management program. Proposed amendments change to cost to reduce financial losses to MTFWP.</p>	<p>Returned to House</p>	<p>Oppose unless amended to reduce financial impacts</p>
<p><u>SJ 6</u> Sen. Mike Cuffe (R-Eureka)</p>	<p>This resolution calls for sufficient funding to be given to Fish and Wildlife Services so the agency is able to adequately manage the bears, and to initiate further review of Montana’s grizzly bears that meet the criteria for delisting.</p>	<p>Scheduled for 2nd Reading</p>	<p>Support with Amendments</p>
<p><u>HB 287</u> Rep. Bridget Smith (D - Wolf Point)</p>	<p>This bill would require 24 hour checks for both traps and snares used to trap furbearers. It also allows licensed trappers to check each others traps, to accommodate the 24 rule, and limit trapper hardship.</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p><u>SB 127</u> Sen. Jill Cohenour (D-East Helena)</p>	<p>SB 127 would prohibit the sale of wildlife location and identification information to hunters.</p>	<p>Waiting for Committee Executive Action</p>	<p>Support</p>
<p><u>HB 411</u> Rep. Willis Curdy (D-Missoula)</p>	<p>This bill would provide for continued funding for the state’s Aquatic Invasive Species (AIS) program through the purchase of an invasive species pass for all vessels operated on the waters of this state, including motorized and non-motorized vessels. It extends the fees for hydroelectric facilities and it decreases fee for nonresident anglers.</p>	<p>Hearing 4/5</p>	<p>Support</p>

<p>HB 402 Rep. Greg Hertz (R-Polson)</p>	<p>This bill defines invertebrate pests as invasive species as defined in 80-7-1003. The bill allows a local governing body to create programs to manage and suppress invertebrate pests as they do with vertebrate pests. It also allows these entities to enter cooperative agreements with other agencies to execute this management. The bill further defines penalties for violations of invasive species ordinances.</p>	<p>Tabled in Committee</p>	<p>Oppose as alternative to fully funding state-wide AIS programs.</p>
<p>SB 221 Sen. Mike Phillips (D-Bozeman)</p>	<p>This bill strengthens federal prohibitions on the import, sale, purchase, barter, or possession with intent to sell, of ivory and rhinoceros horn, but excludes elk ivories.</p>	<p>Failed on the Senate Floor (20-30)</p>	<p>Support</p>
<p>SB 186 Sen. Mike Phillips (D-Bozeman)</p>	<p>This bill seeks to prohibit contest for harvesting predatory animals including coyotes and red foxes. Some exemptions for contests concerning largest antlers, or weight, etc. will remain in statute.</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p>SB 187 Sen. Mike Phillips (D-Bozeman)</p>	<p>This bill would prohibit the use of a motor vehicle to purposely injure or kill predatory animals, a practice we were surprised to learn happens at all!</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p>HB 332 Rep. Joshua Kassmier (R - Fort Benton)</p>	<p>This bill would require approval by a board of county commissioners prior to wild bison or wild buffalo being released into a county. This erodes FWP authority over wildlife, and the bill is written so that prohibiting bison in a county could be enforced by a county growth policy. This would be the only instance when a growth policy has regulatory power. The bill also requires transferred bison to certified as brucellosis free.</p>	<p>Passed out of Committee</p>	<p>Oppose</p>
<p>HB 509 Rep. Gordon Pierson (D-Dearlodge)</p>	<p>If this bill passed, each wildlife population count conducted by the FWP department or commission would have to be reviewed for accuracy at least once every 5 years by an independent third party.</p>	<p>Tabled in Committee</p>	<p>Oppose</p>
<p>HB 497 Rep. Wylie Galt (R - Martinsdale)</p>	<p>This bill enables the Fish & Wildlife Commission to establish shoulder seasons for the harvesting of elk. This could allow a single individual harvest up to 3 elk in a license year.</p>	<p>Sent to Enrolling</p>	<p>Oppose</p>

<p><u>HJ 18</u> Rep. Wylie Galt (R - Martinsdale)</p>	<p>This is a joint Senate and House resolution intended to send Montana Fish, Wildlife & Parks and the Montana Fish & Game Commission a message about the urgency of establishing a shoulder season for elk.</p>	<p>Passed out of Committee</p>	<p>Oppose</p>
<p><u>HJ 17</u> Rep. Willis Curdy (D-Missoula)</p>	<p>This joint resolution asks congress to help fund AIS prevention in the state. The resolution takes into account the impact that AIS could have on the state and recommends that federal agencies be funded to help with mitigation costs.</p>	<p>Waiting for Committee Executive Action</p>	<p>Support</p>
<p><u>HB 551</u> Rep. Bob Brown (R-Thompson Falls)</p>	<p>This bill would usurp the authority of the FWP Commission by regulating what hours they can set for wolf hunting. The commission could not limit the hunting of wolves to daylight hours.</p>	<p>Died on 2nd Reading (44-56)</p>	<p>Oppose</p>
<p><u>SB 299</u> Sen. Mike Lang (R - Malta)</p>	<p>SB 299 represents the first major legislative attempts to gut the sage-grouse Stewardship Act. This bill would exempt certain current land-uses from provisions of the plan, lower the bar for mitigation plan approval, reduce the mitigation value of conservation easements, and add a number of oversight team reporting requirements. For example it creates exemptions for tall structures, setting the oversight team back on rule-making. The bill requires the program to balance economic incentives with conserving sage-grouse for each independent project, losing focus of the big picture - balancing sage-grouse conservation with the state-wide socioeconomic impact of a potential Endangered Species Listing.</p>	<p>Scheduled for 2nd Reading</p>	<p>Oppose</p>
<p><u>HJ 28</u> Rep. Dan Bartel (R-Lewistown)</p>	<p>This resolution is asking the Bureau of Land Management deny the bison grazing permit of the American Prairie Reserve.</p>	<p>Passed out of Committee</p>	<p>Oppose</p>
<p><u>HB 441</u> Rep. Kerry White (R - Bozeman)</p>	<p>This bill repeals section 77-5-208 of the Montana Code, the section that allows the Department of Natural Resources and Conservation to offer conservation licenses in lieu of timber sales.</p>	<p>Waiting for Committee Executive Action</p>	<p>Oppose</p>
<p><u>HB 752</u> Rep. Bradley Hamlett (R - Cascade)</p>	<p>This bill opens up the Sage-grouse Stewardship Act to require the Montana Sage-grouse Oversight Team to develop predator mitigation plans if sage-grouse numbers drop 20% between years. These plans can</p>	<p>Tabled in Committee</p>	<p>Oppose</p>

	cover entire Fish, Wildlife & Parks administrative regions, or may cover just areas surrounding active leks. If a predator mitigation plan were enacted, this bill would then allow the Fish and Wildlife Commission authority to reconsider sage-grouse hunting regulations within the area covered by the mitigation plan. This bill also creates a \$500 fee paid by project proponents for compensatory mitigation consultation.		
HB 291 Rep. Becky Beard (R - Elliston)	This bill creates a voluntary wolf mitigation account that can accept private donations to be applied to wolf mitigation. These counts have been shown to be ineffective in the past and funds would be primarily used for lethal control. We are advocating for a sunset on this bill because of its likelihood in passing.	Passed out of Committee	Oppose
SB 247 Sen. Jill Cohenour (D-East Helena)	This bill would prohibit people from using or transferring location information from FWP about animals to harm, harass, or to kill fish or wildlife.	Passed Senate	Support
Wildlife Program Funding			
HB 5 Rep. Jim Keane (D-Butte)	This bill contains funding authorization for FWP's capital projects, including Habitat Montana, Upland Game Bird Enhancement Program, Migratory Bird Program, Bighorn Sheep Auction Funds and Fishing Access Site Acquisition. Funding for these programs comes from sportsmen and women's license dollars and is earmarked specifically for these programs. Not authorizing them simply means the funds stay in the bank. The funds support conservation and enhancement of critical wildlife habitat, and provide great hunting and fishing access opportunities.	Passed out of Committee	Support
HB 32 Rep. Willis Curdy (D - Missoula)	This bill provides for continued funding for the state's Aquatic Invasive Species (AIS) program through the purchase of an invasive species pass for all vessels operated on the waters of this state, including motorized and non-motorized vessels. It also requests the appropriation of about 2 million in state general funds. While we support boaters' contributions to the AIS program, we support a more comprehensive approach that includes contributions from hydro power producers as well.	Tabled in Committee	Oppose

<p>HB 148 Forrest Mandeville (R-Columbus)</p>	<p>If passed, the bill would require a 2/3 supermajority vote in each chamber to enact a new tax or fee or tax or fee increase. This bill would strip future legislatures of the ability to responsibly manage state finances and cripple our ability to meet pressing revenue needs, including adjusting items like hunting and fishing licenses, natural resource permit applications, and other state special revenue sources critical for agencies to accomplish their statutory obligations.</p>	<p>Tabled in Committee</p>	<p>Oppose</p>
<p>Climate Change & Energy</p>			
<p>HB 78 Rep. Zac Perry (D-Martin City)</p>	<p>HB 78 had unanimous support in the energy interim committee. It requires for-profit electric utilities (i.e. NorthWestern Energy and Montana Dakota Utilities) to hold at least two public meetings as part of their long-term resource planning processes. HB 78 is a step forward for transparency and consumer protection. Having at least two public planning meetings allows more experts to provide perspective and feedback to the utility that it might not otherwise have access to or consider. All other major utilities in the northwest hold planning meetings that are open for anyone to attend. Only NorthWestern currently has closed-door, invite-only meetings. HB 78 is a step in the right direction for more participation and transparency in the planning process.</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p>SB 93 Sen. Tom Richmond (R-Billings)</p>	<p>This bill requires solar installations with greater than 2MW capacity to provide for decommissioning bonds that will be posted during year 15 of operation. Bonds could be modified as needed, however the small scale of projects targeted could complicate the growth of an industry we want to encourage.</p>	<p>Scheduled for 3rd Reading</p>	<p>Oppose as written</p>
<p>HB 193 Rep. Mary Ann Dunwell (D - East Helena)</p>	<p>HB 193 by Rep. Mary Ann Dunwell (D-Helena) would require large sources of greenhouse gases (i.e., coal-fired power plants and refineries) to pay \$10 per ton of greenhouse gases that they emit into the atmosphere. It also would require the state to develop and implement a modest plan to reduce greenhouse gas emissions below 2005 levels by 25% by 2035 and 50% by 2050. This bill would force large industrial polluters to incorporate climate risks caused by greenhouse gases into the cost of doing</p>	<p>Tabled in Committee</p>	<p>Support</p>

	business. A carbon price helps level the playing field by making sure all fuel prices reflect a small portion of impacts. The revenue generated by HB 193 would go toward coal community transition, remediation of contaminated sites, economic development, infrastructure and the state general fund.		
SB 97 Sen. Frank Smith (D - Poplar)	SB 97, by Sen. Frank Smith (<i>D-Poplar</i>), requires pipeline permit applicants to complete construction within seven years of their application approval. Applicants who fail to meet this deadline will have to reapply. It will also require that agencies evaluate the impacts to cultural resources, such as important Native American sites, when conducting an environmental impact statement for a pipeline application. SB 97 also requires installation of shut-off valves to protect critical freshwater resources, leak detection equipment to improve response times for pipeline bursts, and siting requirements to avoid “sensitive” areas.	Tabled in Committee	Support
HB 271 Rep. Bridget Smith (D-Wolf Point)	HB 271, by Rep. Bridget Smith (<i>D-Wolf Point</i>), requires that new pipelines, such as the Keystone XL Pipeline, be located within the footprint of existing pipeline infrastructure and that the pipeline avoid sensitive areas such as state parks, federal Wilderness areas, and tribally recognized cultural sites. HB 271 also requires installation of shut-off valves to protect critical freshwater resources, and a more thorough analysis of a proposed pipeline’s impacts to Montana heritage properties. The bill also requires that the pipeline be constructed within seven years of permit approval.	Tabled in Committee	Support
SB 189 Sen. Dick Barrett (D-Missoula)	SB 189 would establish a tax on greenhouse gas emissions from electric generation facilities. The bill also directs the Montana Board of Environmental Review to adopt rules governing emission reporting, a carbon offset program, and carbon fees to fund the state program. The bill also institutes a \$10 carbon tax less any carbon offsets that are authorized by rule. Sources can reduce their carbon emissions obligations by 50% using carbon offsets.	Tabled in Committee	Support
HB 415 Joe Read (R-Ronan)	Would prohibit the state from implementing any federal regulation limiting greenhouse gas pollution. The bill also prohibits any state employee from participating in any national	Tabled in Committee	Oppose

	discussion of greenhouse gas regulatory programs meaning Montana's opinion will not be considered when the federal government crafts a regulation on climate change.		
<u>SB 190</u> Sen. Mike Phillips (D-Bozeman)	SB 190 would require the state to develop a plan to reduce greenhouse gas emissions below 2010 levels by the following time frame: 25% reduction by 2022; 50% reduction by 2030; and 100% reduction by 2050. The state must also develop a monitoring and reporting program and track progress toward the reduction goals.	Tabled in Committee	Support
<u>HB 22</u> Sen. Laurie Bishop (D-Livingston)	HB 22 returns contract lengths for independent wind and solar "Qualifying Facilities" (QF's) to 25 years, the same length they were before a harmful 2017 Public Service Commission ruling. QF's are the largest driver of new wind and solar projects in Montana. 25 years is a standard contract length for power plants. NorthWestern itself has asked for and received guaranteed revenue recovery for its own power plants at lengths of 25, 30, 34, and 50 years.	Tabled in Committee	Support
<u>SJ 8</u> Sen. Dick Barrett (D-Missoula)	SJ 8 is a joint resolution to the U.S. Congress that asks the federal government to change its current policy on climate change and join the international community in making a joint, concerted effort to implement global policy that would scale-back greenhouse gas emissions--among other important, forward-thinking policies--heading into the future.	Tabled in Committee	Support
<u>HB 487</u> Rep. Derek Skees (R - Kalispell)	This bill allows Montana utilities to incorporate hydropower into their Renewable Portfolio Standard. Currently Montana Dakota Utilities and Northwestern energy both need to meet the RPS, however MDU has no hydropower currently. Adding hydropower to the RPS would defeat the laws intent and disrupt positive market influences on Montana's energy sector.	Sent to Enrolling	Oppose
<u>HB 417</u> Rep. Marvin Weatherwax (D - Browning)	This bill would mandate that if significant new environmental issues are discovered for a project requiring a Major Facility Siting Act (MFSa) certificate, the MFSa certificate holder is found to have made false statements in the application, or if the MFSa certificate holder fails to maintain safety standards to comply with the certificate, the Department of Environmental Quality must suspend	Tabled in Committee	Support

	or revoke the certificate. This bill could apply to the Keystone XL pipeline, forcing the company and state to try harder to prevent disastrous spills that could affect drinking and irrigation water of thousands of people near the pipeline.		
SB 278 Rep. Tom Richmond (R-Billings)	This is a bait and switch bill that would turn utility regulation on its head and result in skyrocketing electricity rates for 350,000 NorthWestern Energy electricity customers. The bill requires the MT Public Service Commission to approve any and all costs that NorthWestern Energy demands for its existing ownership of the Colstrip plant as well as any additional ownership or investments in the plant.	Tabled in Committee	Oppose
SB 199 Sen. Tom Richmond (R-Billings)	SB 199 is a bait-and-switch attempt at a give away to a for-profit, monopoly utility. The bill has been misrepresented as having to do with “Qualifying Facilities” (QF’s) or a “symmetry” issue at the Public Service Commission. This is grossly wrong. The bill has nothing to do with equal treatment between utilities and independent power producers. SB 199 is purely about removing Public Service Commission oversight from utility expenses. It exposes consumers to higher rates for the sake of utility company profits.	Tabled in Committee	Oppose
HJ 4 Rep. Joe Read (R-Ronan)	This resolution is telling the State of Washington that they are not allowed to make sovereign decision about their own water quality. The resolution tells congress that they should hold Washington accountable to streamline the exportation of coal.	Filed with Secretary of State	Oppose
SB 245 Sen. Mary McNally (D-Billings)	This bill would provide business owners and agricultural producers access to 100% upfront financing to make energy efficiency and renewable energy improvements to their properties. Called “CPACE”, this type of financing is similar to the system we use to finance streetlights, sidewalks, and parks - an assessment on the annual property tax bill. The program is voluntary, and allows financing up to 20 years.	Hearing 4/8	Support

<p>SB 336 Sen. Janet Ellis (D-Helena)</p>	<p>This proactive bill would require the Department of Environmental Quality to complete bonding for remediation and reclamation of the coal ash ponds at Colstrip by the end of 2019. This bill was heard and tabled on the same day - a Saturday!</p>	<p>Tabled in Committee</p>	<p>Support</p>
General Environmental Protection			
<p>SB 117 Sen. Dee Brown (R-Flathead)</p>	<p>This bill would require the MDOT only use chloride based liquid deicers between December 1st and March 31st, while reducing the current level of use by 10% each year over the 10 years following the enactment.</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p>SB 32 Sen. Jon Sesso (D- Butte)</p>	<p>This bill would create a stream gauge oversight working group that is supported by the DNRC. The group would improve the ability to monitor and manage water across the state. The bill was amended with a sunset date in the Senate committee.</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p>SB 120 Sen. Sue Malek (D-Missoula)</p>	<p>This bill would limit retail food establishments from providing single-use plastic straws unless they were requested by the consumer. This bill is a sensible step forward in reducing the estimated 500 million straws used daily in the US.</p> <p>*We are working with Sen. Malek on an amendment to exempt quick service restaurants from requiring that customers request straws to help this bill gain support within this committee.</p>	<p>Tabled in Committee</p>	<p>Support as written</p>
<p>SB 121 Sen. Sue Malek (D-Missoula)</p>	<p>This bill would establish a 4 cent fee on disposable plastic bags, and create a grant program that would allow those funds to be used for recycling and waste reduction programs.</p> <p>*We are working on amendments with Sen. Malek to exempt small businesses, farmers markets, and drive-throughs to help this bill gain support within the committee.</p>	<p>Tabled in Committee</p>	<p>Support as written</p>
<p>HB 165 Rep. Marilyn Marler (D-Missoula)</p>	<p>HB 165 would require food establishments and other establishments to phase out their use of styrofoam over a two year timeline from 2022 - 2024.</p>	<p>Tabled in Committee</p>	<p>Support as written</p>

<p>SB 48 Sen. Tom Richmond (R-Billings)</p>	<p>SB 48 would allow for the Montana DEQ to adopt rules and issue "variances" from water quality standards to polluters. DEQ claims that this bill is simply implementing federal clean water act regulations. However, the bill goes much farther than federal water quality regulations. There are important differences between SB 48 and the federal Clean Water Act and implementing regulations (some of which are currently before a federal district court in Montana). There are also serious legal conflicts between SB 48 and the Montana constitution. SB 48 allows for water pollution dischargers to receive variances years before they are required to produce and implement pollution reduction plan. A variance can be issued when a polluter can not "reasonably be expected to meet the standard" This is a new, undefined, and arbitrary standard which conflicts with federal law. Essentially, SB 48 contains provisions that will dramatically weaken Montana's water quality protections and open the door for abuse.</p>	<p>Sent to Enrolling</p>	<p>Oppose</p>
<p>HB 399 Rep. Kerry White (R-Bozeman)</p>	<p>This bill would have changed the definitions of streams, and would have impacted the issuing of 310 permits.</p>	<p>Tabled in Committee</p>	<p>Oppose</p>
<p>HB 625 Rep. Bill Mercer (R-Billings)</p>	<p>HB 625 would eliminate the numeric nutrient standards under Montana's water quality act. Nutrients are one of the leading causes of water quality impairment in Montana's rivers, streams and lakes. Because of the impacts associated with nutrients, the EPA developed nutrient water quality criteria. Montana is obligated to combat nutrient pollution through nutrient standards, and any attempt to repeal the standards is not in conformity with the U.S. Clean Water Act.</p>	<p>Hearing 4/8</p>	<p>Oppose</p>
<p>HB 464 Rep. Jasmine Krotkov (D-Neihart)</p>	<p>This bill would create a hazardous materials spill response task force. It also establishes the duties of the task force and designates funding for it.</p>	<p>Tabled in Committee</p>	<p>Support</p>
<p>HB 722 Rep. Steve Gunderson (R-Libby)</p>	<p>This bill would allow new companies to come in and take-over hard rock mining permits from other companies that have not executed the terms of their permit, including bonding for the project. The bad thing is that the bill allows the Department of</p>	<p>Hearing 4/5</p>	<p>Oppose</p>

	Environmental Quality to indefinitely extend permit times, and it does not require the mine to be economically feasible prior to permit take-over.		
Public Lands, Recreation & Parks			
<u>SB 102</u> Sen. Roger Webb (R-Billings)	This bill would increase the \$6 dollar opt-out fee for state parks on your vehicle registration to a \$25 dollar opt-in fee. Passing this bill would result in around a \$2 million dollar net decrease in funding to the state park system.	Tabled in Committee	Oppose
<u>SB 242</u> Sen. Roger Webb (R-Billings)	This bill would have changed the \$6 dollar opt-out fee for a state parks decal sticker that would cost \$35 dollars for the first vehicle and then \$20 dollars for each vehicle after. The change would result in a \$3 million dollar reduction in Parks budget and a 21% decrease in the Montana Heritage Commission's budget, as well as a decrease in Fishing Access Sites.	Tabled in Committee	Oppose
<u>HB 301</u> Rep. Denley Loge (R-Saint Regis)	This bill would require people who wanted to park in a fishing access site to have acquired a conservation license. The pass would then have to be displayed in the vehicle. The bill also establishes fines for people who have not acquired a pass.	Hearing 4/9	Oppose as amended
Subdivisions & Land Use Planning			
<u>SB 33</u> Sen. Tom Richmond (R-Billings)	This bill removes the requirement for a "phased development" of a subdivision to include a public hearing prior to the commencement of developing each subsequent phase, ignoring adverse impacts that may have arisen during the platt's development.	Tabled Local Government	Oppose
